Playing on JV can be a new experience for many players, especially this year's JV Boys team. They have a new coach and many new players. Learning the basic skills like how to pass, shoot or dribble are the first steps to learning the game of basketball. Quick thinking and quick action will produce a winning team.

This good action shot of the JV Boys game shows the team working together to play their best.

Josh Barnes says, "I may be shorter than you but you can't have this ball!"
