The Juniors often wonder: "Are we there yet?" It is a great honor to finally be Juniors and to be role models for the undergraduates at AJA. This year has been a drastic change from all the other years because now we choose the prom theme, order class rings and sell fruit! **Josh** and **David** look forward to graduating and enlisting in the service. Then they plan to live a life of woman chasing. **Scott**, **Ben** and **Denise** are looking forward to graduating so they can experience the college life and get out of their parent's house. **Kyle** is looking forward to a football scholarship and plans to be a sports-caster when he retires from the pro's. **Jeremy** is planning on going to OC TEC and live on his own. **Jason** is also going to TEC and is looking forward to reaching his goals and living on his own. **Tracey** and **Rebecca** are looking forward to leaving the burdens of school behind and going to college.

The Juniors are all excited about having only one more year before arriving as SENIORS. We have to make the best of it until **WE GET THERE!**

The Junior Class appears to be listening and following closely as **Mrs. Marsha** instructs French.
