

Only Time Will Tell

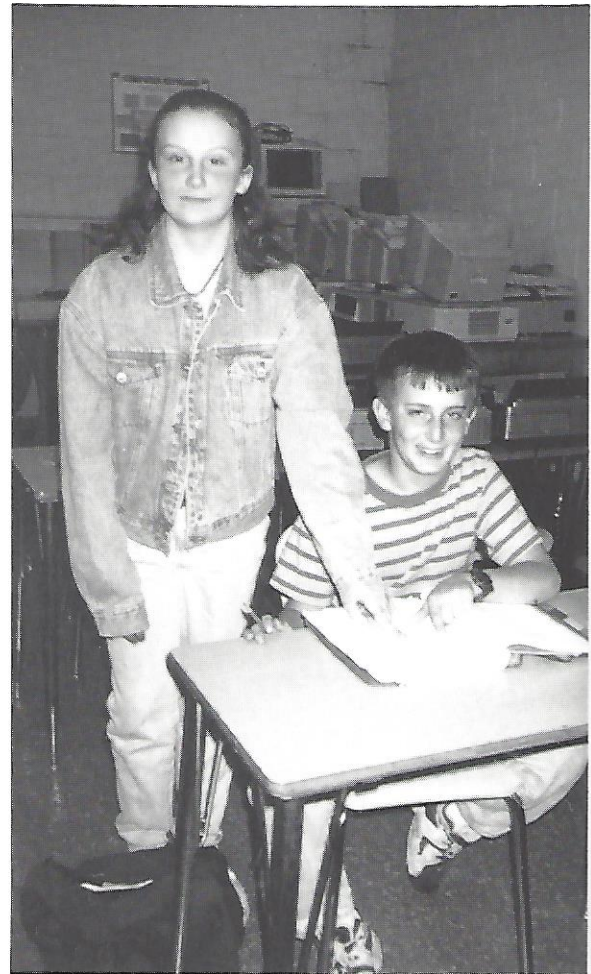

Faye Helmly
Russ Kinard
Sally Malphrus

The seventh grade is faced with the challenge of having only three students. There are some advantages but also quite a few disadvantages. When someone "cuts up" it is easily decided who the guilty party is and who is to receive detention. **Sally, Faye** and **Russ** hope their class will increase in number because they know the "more the merrier."

There are a lot of decisions the seventh grade will have to make over the next few years. We all hope they will make the right ones. No matter what happens they will all remain friends.

What decisions will they make? What will happen to them in the future? Only time will tell.

Faye Helmly points out the right answer in SC History class to **Russ Kinard**.

WHO IS this seventh grader looking over the shoulder of **Sally Malphrus**? Hope **Sally** shares the right information.
