

# Eighth Grade

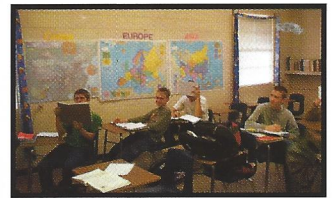

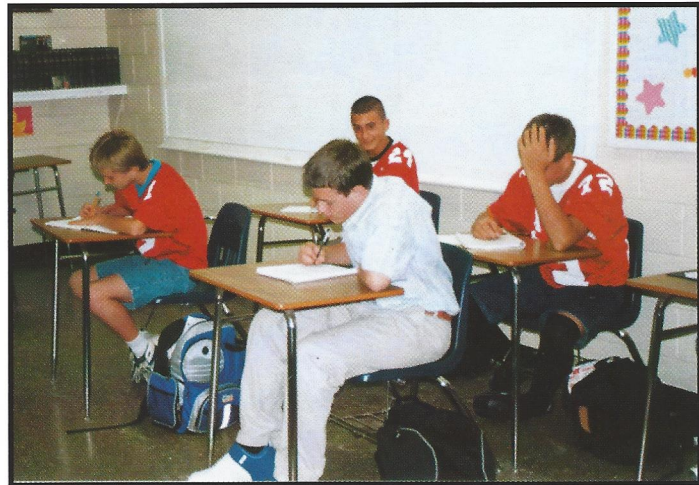

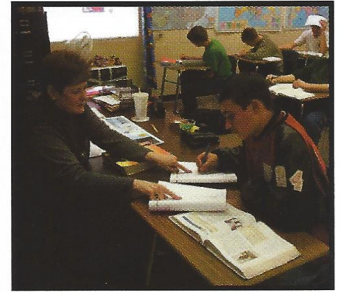

These students are very serious about their classwork. Just check their report cards!

The eighth grade class is one of diverse personalities. John is the loudest and Janie is the quietest. The class voted that Ericka Johns is most likely to succeed. Lunchtime and 3:05 are their favorite times of the day and PE is their favorite class. The eighth grade is quite talented and will go far. They enjoy sports of all kinds and look forward to playing varsity.

Jacob Stroman takes a break from his work long enough to smile for the camera. He seems to be enjoying his first year at AJA.

Chris Long tends to seek a little extra help by sitting next to Ms. Calloway's desk. She is always willing to help students when she can.

The eighth grade class takes a minute to clown around before getting back to work.

The eighth grade enjoyed a little time off from the regular class schedule when Mrs. Rosita was substituting.
