

Jake Sease seems to be enjoying his new friends at AJA.

What's up, Randy? Your desk seems to be attached to Mr. Mixson's!

Sixth Grade

Rambunctious and rowdy, this class will "delight" the seventh grade faculty next year!

Mr. Mixson has quite a few adjectives for this class but we chose not to publish them! All kidding aside, he says this has been quite an exciting year. Jake, Madeline, Doug, and Dillon joined the class this year. Laura was chosen Grammar School May Queen, and Kirsten was chosen to serve as Maid of Honor. The guys participated in sports and always had something going on on the playground. Some of the girls enjoyed playing volleyball, basketball, and cheering. There was never a dull moment for Mr. Mixson. He had to stay on his toes keeping up with them. Sixth graders are always a challenge, and this class was no exception. They are excited about being able to change classes next year and to have different teachers during the day.
