

Mrs. Way's class is eager to learn and a pleasure to teach.

Heather and Clint enjoy school very much. Clint doesn't mind being the only boy! He gets all the attention!

Third Grade

"It is a pleasure teaching this class." Ruth Way

This third grade class is one of the best classes Mrs. Way has had in her thirty plus years of teaching. That is a wonderful compliment to her class. She says they get along well with each other. They do their work, they listen, and they play, all at the appropriate time. They don't complain and are all very cooperative. Now what more could you say. They sound "perfect" ... right? Well, if you dig a little deeper you will find that they are normal boys and girls with their moments... but Mrs. Way still has had a pleasurable year of teaching and looks forward to another year at AJA.
