

Graduit,

It is hard to believe that time has passed so fast. You are about to graduate high school. You have never settled for or were happy being second best. Gaile, you've always done well at whatever you set your mind to. You have always brought joy and happiness in your own special way with your attitude and moods, sometimes good, sometimes not as good, but always to get your way, and always knew you were going to do it now matter what. Your strong will and determination, and non-quitting attitude have helped you succeed, and these qualities make us very proud of you. You have done very, very well and have accomplished a lot, however, your journey has just begun. We love you very much. Remember to put God first and stay true to yourself.

Love,
Daddy, Momma, Mac and Job
