

Job Mathias

Job,

It is hard to believe that it is your turn to start another chapter of your life. Time has passed so quickly, it seems like in some ways you just started 1st grade now you're graduating, moving on to bigger and better things. We are very proud of all that you have accomplished and all that you have overcome through these years. Remember you are very special. We thank God that you are still with us. No matter how big you get you will still be our little boy. You can do anything you set your mind to, even maybe eat something other than chicken. We love you and hope all of your dreams come true. Always remember to keep God in your life, get up early, work hard, and all of your dreams will have a better chance.

Love,
Daddy and Momma
