

# Home Economics

Attractively prepared food and correct serving make a meal more appetizing.

MRS. J. L. SUMMERS  
Home Economics  
Family Living

Girls who plan a future in home economics learn the fundamentals of foods and cooking, sewing, home decorations, home improvements, home nursing, and first-aid in their home economics classes. Along with their class work, they have guided experiences performed at home. They are learning today to build better homes for tomorrow.

"Stitch that seam in straight, Pat," says Mrs. Summers.
