

Mathematics Leads to Reasoning

Math is a subject which teaches a person to understand and use his reasoning power. This will become a definite advantage to him as he goes to meet the challenges of the world.

The math department at Bells is equipped to teach all phases of this subject.

Mrs. Stephens explains to her students how to solve this problem.

Algebra students work diligently on their test.

Mrs. Stephens assists Linda.

Mrs. McAbee places the assignment on the board.
