

The Block 'C', Club

composed of lettermen from the four varsity teams, was a very active organization this year. In the fall they purchased a 16 mm analyst projector to be used in improving our football play. The members worked all winter raising funds for this useful gift to the athletic department. Blue track warm-ups with old English lettering and UCLA shoulder strips were purchased in the spring. Many coaches from the entire Southeast commented on our team's uniforms as being the best looking of any high school they had seen. At the end of the year monogram "T" shirts with blue trim were given to every member. Also under the Block 'C' supervision, came the successful Field Day program.

All of these innovations by this club was possible only through the leadership of their officers and the hard work of all members. The club strives to advance the athletic and recreation programs through their projects while at the same time inject interest and spirit into the student body.
