# Col. James F. Risher

Let me live, Oh Mighty Master,  
Such a life that men may know,  
Tasting triumph and disaster  
Joy and not too much of woe.

Let me love and fight and laugh,  
And when I'm beneath the clover,  
Let this be my epitaph:

Here lies one who took his chances  
In this busy world of men,  
Battled luck and circumstances,  
Fought and fell, and fought again.

Won sometimes but did no crowing.  
Lost sometimes but didn't wail.  
Took his beatings but kept going,  
Never let his courage fail.

He was fallible and human,  
Therefore loved and understood  
By both his fellow men and women,  
Whether good or not so good.

Kept his courage undiminished,  
Never laid down on a friend.  
Played the game until it finished.  
Lived a hero to the end.

# Foreword

This is the most difficult time of the year. The seniors must make plans that will probably affect their whole future. The thoughts enter our minds if during the phases of the last four years we have prepared ourselves for the unscreening that lies ahead.

Whatever phase of life that we turn to we will always look back on our Alma Mater with remembrances of the good times as well as the bad ones. Looking back we can see ourselves growing into manhood and we know that we are well on the road of life.

We will never forget the guidance and kindness given to us by our school. They were a great help in the molding of our character.

Our hearts will have a tinge of sorrow forever.

# Dedication

Around campus we are always glad to see this big man with a big smile. He is a great coach in the class room as well as on the baseball diamond and football field. He has the driving desire to win, and this year turned out the best football team ever. Although he is the coach, he is the sparkplug of the team. His adage is best of all; "It's not whether you win or lose but it's how you play the game, but if you play the game right you won't lose."

The Senior Class would like to dedicate this year's Excalibur TO Coach Harold C. Bullard.

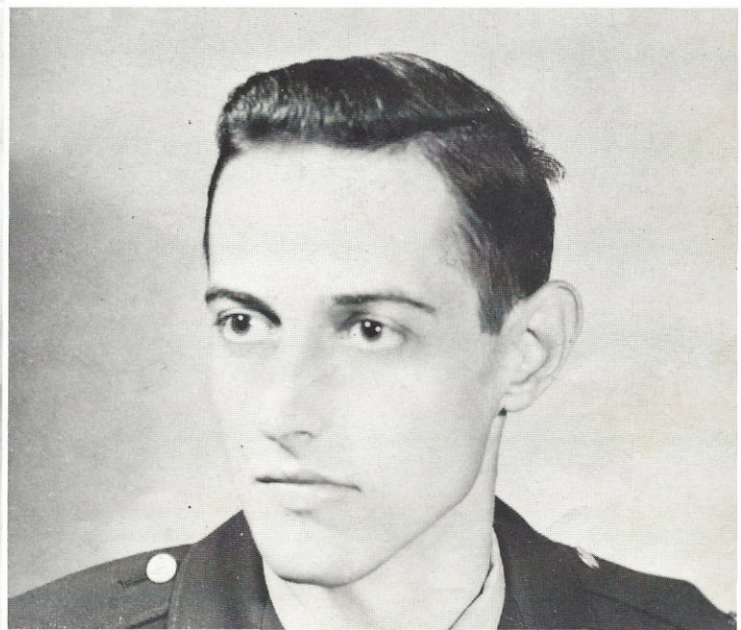

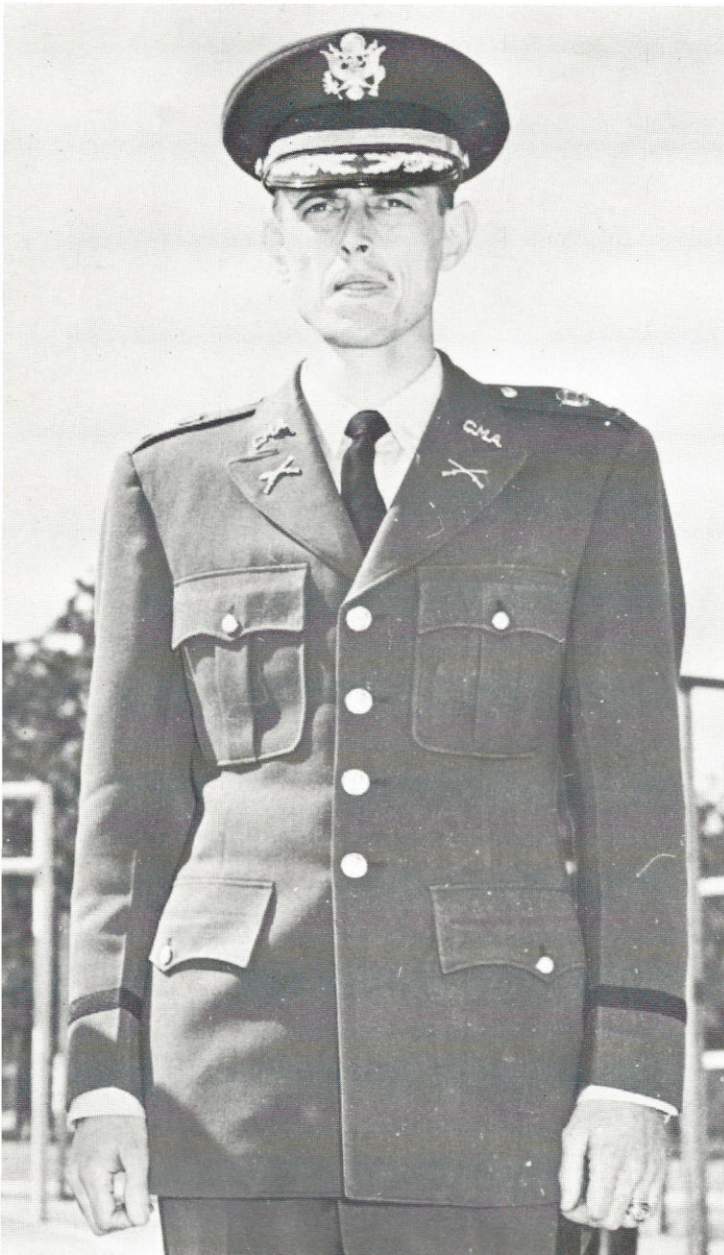

# Colonel Lanning P. Risher

Colonel Lanning Risher was born on September 19, 1931, the son of our President, Colonel James F. Risher. His birthplace was in Bamberg, S.C. He attended the public schools of Bamberg, Carlisle Military School, and The Citadel, where he graduated in 1952. He is now doing graduate work in history at the University of South Carolina. In 1953, he entered the army as a 2nd Lieutenant. In 1955, he came out of the Army with the rank of 1st Lieutenant of Infantry. Upon completion of his active duty, Col. Risher started teaching at Carlisle. He remained there for three years. He then came to Camden to take the job of Headmaster.

For the past four years Col. Risher has put forth much effort to make Camden Military Academy a top Grade school for everyone to be proud of. It is the opinion of the cadet corps that he has done this and much more. We of the EXCALIBUR staff salute you, Colonel Risher, for a job well done.

The football team had been working out two weeks prior to the arrival of the Cadre.

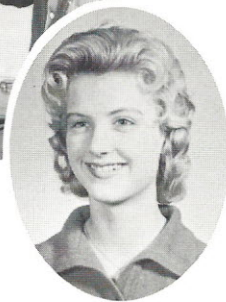

The Training Cadre did an excellent job in orienting the new boys to their new school. A very hard job was well done by this select few.

## *Cadet Prayer.*

Heavenly Father, we beseech Thee to behold with Thy favor this, our Academy, that, through the care and instruction of the young men committed to it, Thy Name may be glorified. Be Thou guide to those upon whom rests its government; enlighten with wisdom those who teach; and grant that we who learn may be blessed in our studies, and our characters so molded that we may evermore stand fast in Thy truth and abide in Thy love, through Jesus Christ our Lord.

AMEN

# The Block 'C', Club

composed of lettermen from the four varsity teams, was a very active organization this year. In the fall they purchased a 16 mm analyst projector to be used in improving our football play. The members worked all winter raising funds for this useful gift to the athletic department. Blue track warm-ups with old English lettering and UCLA shoulder strips were purchased in the spring. Many coaches from the entire Southeast commented on our team's uniforms as being the best looking of any high school they had seen. At the end of the year monogram "T" shirts with blue trim were given to every member. Also under the Block 'C' supervision, came the successful Field Day program.

All of these innovations by this club was possible only through the leadership of their officers and the hard work of all members. The club strives to advance the athletic and recreation programs through their projects while at the same time inject interest and spirit into the student body.

This year, for the first time, C.M.A. had winning seasons in all sports. This excellent record was the result of the hours of practice and training put in by all participants.

The coaching staff, the faculty and the battalion, who all profited so much, congratulate these athletes for their tireless and successful efforts.

The Spartan Cindermen had the most successful year in the school's history, breaking fifteen records. In competition with schools throughout the State and Southeast, they made a fine showing. For three years they have been undefeated in dual meets. The team placed fifth out of thirty-five schools at the Furman Relays.

The Coaches Award went to Junior Turner and the Most Points Award to Tommy Griffiths.

Many boys who worked hard all season on the Junior Varsity Squad will most certainly strengthen the team in coming years.

# Alma Mater

Mighty Camden, we salute thee now  
And may this be our eternal vow,  
That the truths held dear  
By the code austere  
Shall thunder in our ear.  
In adversity  
Let us steadfast be,  
And face life's trials without fear.  
May love of God and love of man,  
Freedom, truth, and duty to our land,  
Forge a bond between us,  
Man to man.

The Department of the Army awarded medals to the top student in the Military Science classes for the year.

# Margins for Tomorrow

Adam, when he left the Garden of Eden, had no prospect of social gain, no capital, and no tools, knowing but one creed: "In the sweat of thy face shalt thou eat bread."

Between his needs and his capacities was the narrow margin of desperation.

Through the centuries since, Adam's descendant had that sweat of brow, necessary ingredient though it may be, will alone produce poor loaves, and few. HE had learned the way to multiply his own puny efforts with the powerful engines of his own ingenuity. He has learned to reinstitute some portion of his being as capital, to employ capital effectively to provide new and better tools, and with them he had fashioned a margin of social gain beyond the dreams of man since the beginnings.

Today, we identify this relationship of man to his labor, his capital, his techniques, his tools, and his dreams, as technology. And wherever technology has flourished, social gains have followed as a matter of cause and effect.

Technology is the great multiplication table. It is the margin between pint and bushel, between ounce and pound, between dozen and gross. In America, it

is the margin between homespun and nylon, between the pot on the hearth and the eye-level oven, between root cellar and deep freeze, between plow and tractor, between wagon train and jet liner, and, because the means must precede the fulfillment, the margin between Lincoln's lonely study by the dying fire and the scholarly haven of the Harvard Yard.

In these achievements, men have found the way to the standards of life, of dignity, and of aspiration toward which they have struggled for centuries, with the goals always just eluding their outstretched hands. Technology providing that strength, has produced the trust of energy that today we see measured in the margin of cessitum the margin of knowledge over ignorance, the margin of knowledge over fear and perhaps, in perilous times, the margin of survival over disaster.

In technology's wake have come the order of law, the amenities of culture, the tender hand of charity. For only as the head once bowed with toil can be raised up can man lift his eyes toward those broad and hopeful margins of tomorrow.
