

Cadet Life

"Camden Military Academy is pretty interesting. Some cadets might say that it can be boring. But really it is just how you make it. You make friends here that become your brothers. That's the fun of the school. You bond and have fun with your brothers. Some of these friends will be there throughout your life...just because of the experience you went through together." Senior Jacob McGuire of Indian Land, South Carolina

After a day of hard work, cadets need some well earned rest. There are many ways to spend your free time, and these cadets would not miss a day of it for anything!
