

Rifle Team

"Camden Military Academy has over 200 cadets assigned in the JROTC program in the grades of 9th-12th. The program itself is designed to help motivate young people to become better citizens. It does this by teaching cadets the value of citizenship, leadership, service to the community, personal responsibility, and a sense of accomplishment, while instilling in them self-esteem, teamwork and self-discipline. Some cadets take it to a higher level by joining the school's Rifle Team."
