

Best of 2019

My name is Ian, and I'm from Indianapolis, Indiana. Since coming to Camden Military Academy over the summer, I have loved it here. CMA has offered me classes small enough to know my teachers personally and to communicate easily with each other. My teachers can know what I want to do in life and how they can help me get there. The faculty and staff at the school are very friendly, and they know every cadet. Not only are the cadets proud of the school, but parents love it here too. They know that Camden Military Academy can spark a certain motivation into its cadets that most other schools can't. The after school life at Camden is amazing also. We have clubs and teams such as, Civil Air Patrol, Drill Team, Rifle Team, and even an Archaeology Club. Overall, my stay at Camden so far is a great experience, and I would come back to CMA in a heartbeat.

My name is Amal Patel, and I am in the ninth grade at Camden Military Academy. I like many things about this school. My favorite thing this year was the Pecan Festival. LTC Heflin chose people to go with him to Whiteville, North Carolina. In Whiteville the Pecan Festival is a very important thing.

At the Pecan Festival we escorted the belles, or the girls, of the Pecan Festival. Then we went to different houses and gave people tours. We had a lot of fun staying at a hotel, eating at Pizza Hut, and watching a very exciting football game. The next day we were in the festival parade. We walked beside the float that the girls were on. I had so much fun and made new friends. CMA was much better after that.
