Camden Military Academy, where I am an 8th grader, is a school for 7th through 12th graders. This academy is a great academic and college prep school. Everyone usually thinks the same thing about a military school, that it is going to be bad, but courses like Math and Science and sports like football and cross country make this a great school. I knew it was a great school when everything about me started getting better: my grades and my personality. CMA has changed me into a new and improved person. I know it, my parents know it, and everyone else knows it. If I had a chance to change my decision to come to Camden Military Academy, I wouldn't. This school has helped me a lot, and I am happy and thankful for that.
