NON-COM CLUB

Forming the bulk of the institution's military organization, the non-commissioned officers comprise a sound basis for the enforcement of all regulations and discipline at Carlisle. "Esprit de corps," a governing factor in the school's activities depends largely upon this group.

From these officers, according to their conduct, morale, and capabilities, the commissioned officers for the succeeding year are selected.

Performance of the duties assigned them provides these officers with a wisdom of leadership, a sense of responsibility, and an enlightenment of human understanding, which plays a most significant part in molding the sturdy character of man.
