The Library Club has become one of the most active members of the South Carolina High School Library Association. It won an Excellent Award Certificate at the State Convention last year. For the past two years some of the state officers have been members from the club.

This year the Library Staff has worked to promote greater teacher and pupil participation in the selection and use of library materials.

The library functions to further the school's objectives. It becomes increasingly effective as teachers and pupils learn to use its resources for their work and play purposes.
