### 200 Years of Freedom

200 years ago America was born. Many men and women died for something called freedom. Now what does freedom mean? Look around you. And think about it. All that you see people have lived, fought, and died for.

In the Declaration of Independence, Thomas Jefferson wrote: "All men are created equal, and they are endowed by their creator with certain unalienable rights, and among these are life, liberty, and the pursuit of happiness." 200 years later, we are still living under this thought. Thus, let us all take a minute to pay respects to the people who gave their lives, to the thing, "Freedom".

And here at Carlisle we dedicate this annual to the  
"Spirit of seventy-six"
