

AS another year comes to a close, students reminisce about the memories they've shared. For some it will be the last memories created with their high school friends, for others it's just the beginning. Regardless of the situation everyone will remember the time they "Made it Rain", learned "How to Save a Life", and realized "What Hurts the Most". We close the book on this year, but to everyone that will remain within the halls of Colleton County High don't forget to "Celebrate Good Times".
