The Varsity and Junior Varsity cheerleaders worked hard during the summer's camp. "Camp was difficult, but I think we learned a lot from it" junior Crystal Barr said.

The cheerleaders prepared to run out the varsity football team. "I am especially good at flying and dancing," sophomore Tiphany Boyd said.

"Cheerleading is definitely not all smiles and cute uniforms, that's a great part of it, but it's all about hard work and dedication," junior Amanda Lemacks said as she showed spirit for the girls' basketball team.

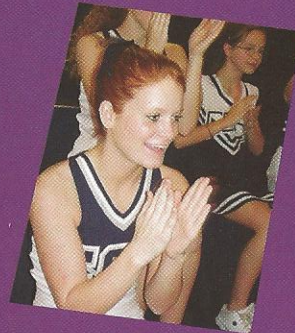

"My favorite part of cheerleading is stunting because it is the only part that doesn't get easier. I love the adrenaline rush and the looks on peoples' faces when we actually do something cool," junior Courtney Ivey said after cheering at a home basketball game.

1. "Because it is my last year, I had really high expectations and goals for myself, my stunt group, and my squad. I wanted to be a good captain and set a good example for the girls, get a Lib., and I wanted our team, as a whole, to just improve in every aspect. Well, I got the Lib., and as far as my other goals are concerned, I feel as though they were achieved," senior Lindsey Lowery said.

2. "Honestly, I don't know why I love cheerleading so much. It is like a passion to me. I have done the sport since 2nd grade. I like dancing, stunting, and knowing that I can help support the team by doing something I love," senior Stevie Byrd said.

3. "My favorite stunt is our Lib.-turn-arobesque. It's a challenging stunt that just looks pretty. Until this year I hadn't done it, but we got a good flyer and a very talented stunt group so we achieved it," senior Rebecca Herndon said.
