

ART

Art is a creative way to express yourself. It is a reason to be spontaneous. . . even wild. No piece of art work is the same. With patience and dedication, students are able to learn the importance of art history and how it affects the present work. From drawing to painting to pottery, the art classes do it all. Assignments are given often so that students may be able to push themselves to reach higher limits and achieve new goals. There are many different types of art classes available for the students: along with the basic first year class, there are levels Art II through Art IV, as well as such specialized courses as Art through Technology, Photography, and 3D Art. The art department consists of three teachers: Mrs. Davis (head of the department), Mrs. Whitten, and Ms. Langston.

RIGHT: Junior Savannah McCloud puts the finishing touches on her drawing. Perfection!

"THE ARTIST'S WORLD IS LIMITLESS. IT CAN BE FOUND ANYWHERE, FAR FROM WHERE HE LIVES OR A FEW FEET AWAY. IT IS ALWAYS ON HIS DOORSTEP."

Through hard work and dedication, these students find reward in expressing themselves through a pencil and paper or a canvas and paint.

MADISON BIRD //

As a senior, she is determined to pursue art as her career. Art has taught her to not be afraid of being creative and showing the world what she can do. "Words cannot describe what I get out of it."

VICTORIA GLOVER //

In the end of her senior year, she finds interest in learning new skills. Every year, she has had Mrs. Davis as her teacher and she "appreciates all the things she has learned from her." Her favorite painting is the hot dog and cake she recently painted.

SCOTT COLSON //

In his junior year, he finds that art comes to him with ease. His favorite thing to draw is realistic people. To him, art is a great pass time, but believes that learning the history is very important in order to grow in it.
