

JAG

JAG is an acronym that stands for Jobs for America's Graduates. The program is designed to help kids that face barriers—such as being in a single parent household, having behavioral issues, tardies, or failing a previous class—to successfully graduate high school. Even a year after graduation, the JAG program still helps previous members find employment and follows them to make sure their freshman year in college is as smooth as it could be. While in high school, the members attend the National Student Leadership Academy in Washington, DC, Career Development Conference in Columbia, SC, and many college tours. At these events JAG members compete in telephone techniques, public speaking, and essay writing, followed by numerous workshops.
