WE ARE PROUD!!! WE ARE PREPARED!!!

BONDING MOMENT

Paint soccer is an event that Student Council hosts for all students to join during Spirit Week. It's recreational fun and is used as a bonding exercise for all students to enjoy. Pictured here are some of the many students that took part in this activity. The day was filled with lots of laughter and fun, and the take away was memories for these students to remember forever.

Student Council is all about order. The students in this organization help raise money and participate in school events like spirit week and pep rallies. They participate in canned food drives and collections, and have sales on items like baskets. Each class has their own officers that do what that grade level does and get the rest of the students involved with school activities. Not only does Student Council help the student body, it helps the community too. The students raise money to help kids with terminal illnesses and they created gift baskets for the homeless.
