Our JV Girls Soccer team is all about team work and collaboration. These girls joined the team with more than just a mindset to win. They have people in their lives that have influenced them to pursue soccer or have just wanted to change for themselves. These players are so motivated and hard working. This season will be one that they remember and learn from before they move up to Varsity. No matter the outcome of a game they keep their heads up and better themselves for the next game.

SMILE FOR THE CAMERA!

"We hope to grow from our trials and errors, promote and grow our team bond, and win some games" said Junior Leiarra Rivera (#40)

TAKE THREE!

Freshman Russende Blackshear (#27) started playing soccer in 8th grade because of the lack of African American women in the sport.

ACTION ON SET!

(L) "This season just like every other my personal goal is to become a better soccer player. This year that includes seeing plays, watching the field, and using me and my teams skills to to an advantage," says freshman Kaitlyn DuBois. (#9) (R) Coach Van Hulst makes sure her team keeps up the energy during the game.
