

SECOND

MOVING UP

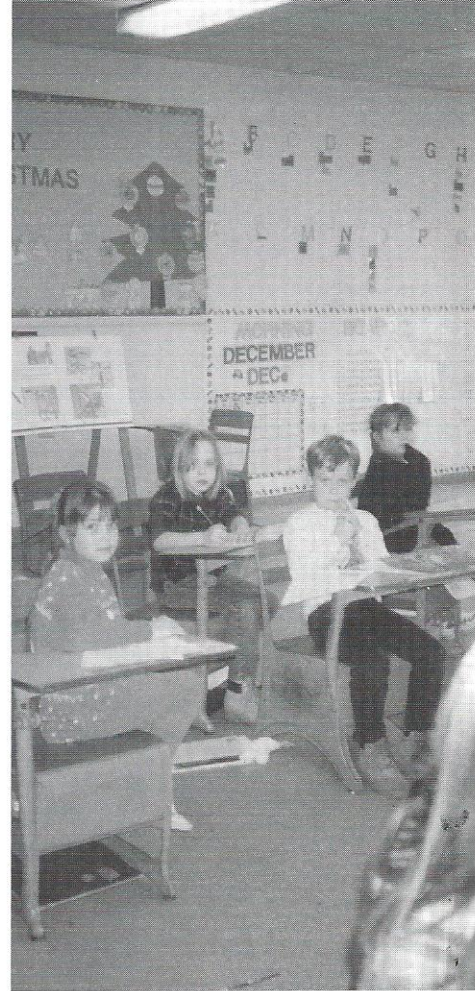

I like Mrs. Roberts and the work she gives because she is so nice.

Logan Tripp

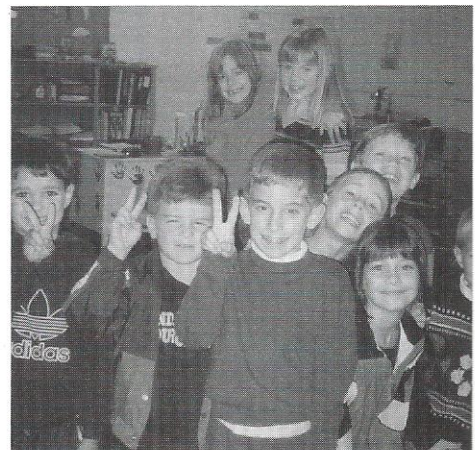

The second graders are moving right along in learning. One of their ways to

learn was how to write in cursive. They never knew that they could write so well! Mrs. Pryor and Mrs. Roberts enjoy teaching them and seeing how fast they learn. The second graders are really excited about taking that big step to the third grade.

P.E. once a week gave the second graders a chance to vent their energy.

The second grade could always be found working hard on their studies.

John and his friends give peace signals for the camera.
