

Dear Scarlett Leigh,

All the ends of the earth could be searched , and I would never find a better person that I would want for a sister than you. The great times we have had together during our childhood are unforgettable. Not only are you the best sister a brother could have, but you are also my best friend. You are the very beat of my heart and the breath I breathe of my body. If I had to choose between all the riches in the world or having you as a sister, I would, without a shadow of a doubt, choose you.

I wish you all the best life has to offer, because the best deserves the best. You are unbeatable, unconquerable, and untouchable. You are greater than the greatest. Never forget that I will always love you. I could never begin to thank you for all our cherished memories. May God keep you under his wing, because you are truly one of his special angels.

Love always and forever

Your brother,

Bud

Once you were a princess

Then you were a queen

But you will always be my little  
sister
