The 2009 Talon is proud to dedicate the yearbook to **Coach Nat Stoner**. Coach Stoner has been the head baseball coach and a high school math teacher at Colleton Prep since 2005. We are so fortunate to have him as part of our faculty and coaching staff. He provides the students and athletes here with a very positive and enthusiastic learning environment; learning mathematics never has a dull moment as long as Coach Stoner is involved. He makes learning fun. Not only does he make it easy to pay attention in class, but he also shows the team how to have fun out on the field while winning! Everyone knows a few things about Coach Stoner; first and foremost-- he **LOVES** Guns n Roses and Rhianna! He also uses awkward animal situations to make math problems entertaining. We choose to quote him by saying, "**He's a good quality human being!**"

We Love You!
