

# Mary Callie Griffin

Callie.....you came into this world strong willed & independent.....an answered prayer from God.... little did your Dad & I understand the adventure that our little red-headed princess would take us on for the next 18 years....you have brought smiles, laughter, tears, frustration, joy, pride, and love to our lives.....it seems like just yesterday we were bringing you to Mrs. Shelley White's kindergarten class for your very first day of school.....you have walked the same halls & sat in the same classrooms that your dad & I did many years ago....you have filled these past 13 years with Wee-Hawks, flag football, soccer, basketball, volleyball, cheerleading, Queen of Hearts, sleeping with the sharks, friendships, parties, field trips, proms, road trips, pep rallies, field days, and your first true love.....and now you are getting ready to walk across the same stage that we walked across.....as one chapter of life closes, another exciting chapter begins.....your mom & dad can't wait to see what exciting adventures college holds for you.....all that Dad & I hope for you is that you will stay grounded in your faith as you go out into this great big world because this great big world can let you down, but God never will.....love you bunches....Mom & Dad....
