

MUSIC

The Lower School students had an excellent Christmas program and easily put the crowd in the spirit of Christmas!

The music program at CPA continues to grow under the direction of Mrs. Jennifer McMillan. It provides students the opportunity to learn many aspects of music. Students in K4 - 5th grade participate in music class weekly where they learn rhythm and pitch. Middle School students study music history from baroque through out the 20th Century and learn to play percussion instruments. High School students participate in Chorus as an elective and they are the center of the spring showcase. They also lead the school in all other musical entertainment throughout the year.

We are very fortunate to be able to participate in SCISA Choral Clinics and Music Festivals where are students continue to excel. Not only can you hear our students sing at concerts, they can also be heard singing the "Star Spangled Banner" at our sporting events as well as numerous other events throughout our community!
