

Class Prophecy

January 11, 1964

Dear Helen,

After so many years I thought I'd never hear from you again. I'm glad to know you got your Home Ec degree and is now teaching in Chicago, Ill. I guess you'd like to hear about the rest of the classmates. Well as for me I'm practicing nursing at Roper Hospital. Guess who is the head nurse there? None other than our old classmate, Patricia Ackerman.

Last summer on my vacation in Jacksonville, Fla. whom should I meet but Evelyn Adams. She's doing quite well as religious educational director. She was engaged then so I guess she's married by now.

Thank you for sending me that picture of Charles Griffith that came out of the sports page of the CHICAGO TRIBUTE. Who would have ever thought he would have this opportunity of being third baseman for the Chicago White Sox!

Guess what Gene Cone is doing now? He's agriculture teacher at good old CHS. Remember how he always said he hated to leave Cottageville.

Coming back from my vacation last summer, guess who was the hostess for the plane trip from Charleston to Paris? She was our old classmate, Maxine Hoff.

Remember Delmer Rowe? He was home last week. He has really hit the high spots. He has the rank of a general in the air force. Remember how he used to talk about it?

I read in the BAPTIST COURIER last week that Bernice Bailey is a missionary in China. She's coming home next week.

Well, I wish you luck in your career and hope to see you soon.

As ever,
Gwen
