

Seems that three of our boys went to college. William upon finishing college went to work with G. E. and is now working in his choice vocation. Legare upon finishing college became football coach for Walterboro. Gerald also finished college. What is his vocation? Well give him time, he just got the college diploma.

Next I see women's legs, then a desk. When these two are together it spells nothing but secretaries. These two secretaries happen to be Alice and Sarah. They are private secretaries for a lawyer. This must be a real tough case they're working on now.

Next I see two college graduates, Betty Joan and Carrie Moyer. Carrie Moyer upon finishing has been seeing the world as an air line hostess. The world Betty Joan is seeing is the faces of the boys and girls she stands before and tries to teach.

Last of all I see myself with a dress in one hand and a teacher standing beside me. I am still studying and working to fulfill my aim to be a well known dress designer.

Upon having fulfilled my desire to see my classmates in the future, I return the crystal ball to the keeper of time with my deepest appreciation.
