

Sara,

How can we put in words what you mean to us. You were our first child. You made us a family. You filled our hearts with so much joy, love, and excitement. Our lives were blessed, and we thank God every day for giving us a daughter as special as you. As a child, you were always strong willed and very independent. You never wanted to be carried, that is why you learned to walk early. You never wanted to be helped, you would always say "me do it myself." Now as you face the biggest challenge of your life, we know in our hearts your strength and determination will enable you to take on the world. We hope that you will strive to make your life one that you can look back on and have no regrets. Sometimes life will throw you curve balls, but with a strong belief in yourself, and God on your side, you will always hit homeruns. Just remember, no matter what, your Mom, Dad, Nick, and Lana love you with all of our hearts and will be there for you if you ever need us. We are so proud of what a wonderful and talented young lady you have so quickly grown to be. Our biggest prayer for you, is that you find all the happiness and joy in your journey through life, that you brought us all these years by being our "LITTLE GIRL!"

Momma and Dad

Sissy,

Thanks for being our "big sister." We love you and are so proud of you! Don't forget the good old times.

Nick and Lana
