## **Senior Class History**

Some of our Seniors came to John C. the first year the high school was begun. During this year they went through the difficulties of going to a newly established school.

The next year as Juniors, they faced the impossible task of putting on a Junior Senior with only five in the class. Our Juniors proved, that with effort and work, nothing is impossible. This will always be a "Wild Thing" in the life of John C.

This year the Big Five is setting an example for years to come. As the Seniors leave, the Academy will change but the Big Five will always be remembered.
