

# The Circus Comes To Town

The Kindergarten participated in many activities this year. One such activity was the Kindergarten Play in which they used "The Circus" as the theme. The children worked hard rehearsing for the program with the help of their directors, Mrs. Hiers and Mrs. Warren. The parents contributed to the program by building the props used in the play. To go along with the theme, the children were able to dress up as their favorite animals such as monkeys and lions, and many of the students painted their faces to look like clowns. The program was a great success.

The children line up on stage to rehearse the program one last time.

Mrs. Hiers and Mrs. Warren help the children find their spots in the play.

This kindergartener is shy when it comes to talking into the microphone.
