

Dedicated To The One We Love

Always at their side, Mrs. Warren loads the children on the fire truck.

It doesn't really matter how long a person works at something, as long as they do their best, their accomplishments will be recognized. Mrs. Sylvia Warren has been teaching at John. C. for fourteen years, but she hasn't gone unnoticed. Everyday she has shown her love, loyalty, and understanding to students and faculty. Her warm friendly smile has made lasting impressions in our hearts.

How she would comfort us when our parents left us crying on the first day of school, how she would threaten to wash our mouths out with soap when we were bad, how she would button up our coats when the weather was cold: these are just a few special memories we share.

Mrs. Warren taught us more than just the alphabet and numbers, she taught us how to love and be kind to others. When asked why she enjoyed teaching kindergarten, she replied, "Watching them grow from "babies" into more independent boys and girls is rewarding." This year we reward Mrs. Sylvia Warren by dedicating to her the 1987 *Talon*.

It's hard to believe students now taking chemistry and algebra had trouble with the alphabet. What would we do without Mrs. Warren?
