

NORTHSIDE ELEMENTARY SCHOOL

As long as we challenge our students they will strive to succeed. The staff and students did a wonderful job last year and I know we will do more this year (2002-2003) to improve education at Northside Elementary. The effects of adding rigor to our curriculum was rewarding and we will continue to move forward. Teachers are the ones who make a difference in students' education. Quality teaching by quality teachers is the key to our student's success. Our best efforts are for the students. We refuse to settle for anything less than the best from our students, because they expect and deserve the best from us. A strong partnership between parents, community and teachers will make a better future for our students.

To all the students congratulations on proceeding to the next grade and enjoy this book of fond memories. By staying in school, you are taking the right steps in the right direction. You are **Reaching Higher, Shining Brighter**. Northside Elementary has top-notch students doing a terrific job daily. The staff and your parents are proud of every one of you.

**"We are here for the students."
J. Cobb,
Principal**
