## *Ice Skating Club*

"Steinberg Ho" was the cry heard every Saturday morning during the winter season as the members of the Ice Skating Club started out on a caravan to the rink. Once there, this group of girls had a jolly time. They "goofed around" a lot, but also learned a great deal from each other about the arts of figure skating. They exchanged ideas and suggestions and derived the best methods for doing "Spread Eagles" and "Figure Eights."

During the great blizzard of February and March the club tried their skates on some of the lakes and ponds in the county area. This venture proved to be lots of fun, if not particularly organized, for here skating became a true outdoor sport.

To quote their president, "We tried to get professional lessons in figure skating, but when the lowest price was one dollar for ten minutes—well—that's not too good." Nevertheless, led by their sponsor, Mrs. Schroeder, the Skating Club had a season filled with "much fun."
