#### "September"

"Do you remember the twenty-first night of September?" Homecoming — just one of many events during the school year's beginning. Setting the rhythm. One that pulsated throughout 1979-80. The beat was hurried, for the people that set it moved at a fast pace. Rushing to classes before the ringing of the tardy bell, to the canteen at lunch, to activities after school. Bringing new experiences to whoever might have felt it, the rhythm continued steadily onward.

"You've Got a Friend"

"Winter, spring, summer, or fall—all you have to do is call, and I'll be there. Yes, I will. You've got a friend." While new friendships were made, old ones were strengthened. Helping smooth the rough spots of the year, friendships added a flowing style to the music. Blending with

harsh tones as well as pleasing ones, friends made the days pass quickly — before school, during classes, after the two o'clock bell. As the song throughout the school year continued to be composed, friends, like notes, were added, blending together a sound never to be forgotten.

"So be true to your school now, like you would to your girl or guy. Be true to your school now, and let your colors fly." School spirit gave tempo and expression to the '79-80 year. Loud and resounding in times of victory and in times of hoping to be number one. Soft, however strong and continuing, in times of defeat. Students united to pull for their team, their school. Spirit buttons and school colors were worn to show support for the Rebels. Excitement generated throughout each season with the hope that their team would be on top, the best.

#### "Cheeseburger and Paradise"

"I like mine with lettuce and tomato, Heinz 57 and french fried potato ... which way do I steer for my cheeseburger and paradise." Lunchtime gave students and faculty time to "pig out," to share experi-

ences, to take a break from classes. By recording these times, measures of music were added to the melody. Though part of the schedule, these experiences differed from day to day, bringing about a change of tempo.

#### "Your Smiling Face"

I want to thank you for all the help you gave me with my college math in study hall this year. You helped me understand a lot of things and I'm sure you'll have to help me with Calculus next year. I enjoyed being in classes with you this year. I can't believe that we will be seniors next year! Have a great summer. Love Jamie

"Whenever I see your smiling face, I have to smile myself." The contagious smiles seen at WHA brightened Monday mornings and continued to bring sunshine to each day. Laughter and smiles shared by friends brought happiness and harmony into the year's song, making it more vibrant, more meaningful.

#### "Truth'll Set You Free"

"You've got to be yourself, let yourself be best. For the truth will set you free." As both students and faculty set their routines with the music, they used their individuality in composing their own songs of the same pulsating rhythm; however, with unique expressions and unique blending of sounds, trying to harmonize with the world about them. Each song differed, but all of them contributed, adding a variety of tones and expressions to the composite melody, full of much harmony, much happiness.

## S O L O S

Upper School students developed their own abilities this year by increasing their solo performances. After being involved in clubs and taking part in the many activities the year had to offer, they not only developed their personalities and characters but learned to harmonize better with the world about them.

Students' tunes were full of much variety — many experiences. The individual songs were never ending so that events of the future might be added, revising the original melody.

## Seniors Become the First Graduates of a New Decade

The Class of 1980 began the school year looking forward to being the first graduates of a new decade in time. The seventy-two members of the class seemed to draw closer to one another as the year progressed as each senior realized he would never pass this way again. The pride and spirit of the seniors set an atmosphere of excitement throughout the school. During the early part of the spring the seniors caught the dreaded "Spring Fever" as the anticipation of graduation day grew nearer. The class graduated May 30, 1980.

1. The senior bulletin board shows what each senior thought about throughout the year.

"Hello, yes, I recall your name. We went to the same high school." We were best of friends. I thought friendships would never end ... at least until college days began.

I've heard these are the best years of our lives. If so, I've spent them with you. But all good things in life must pass. A friend like you — too good to last — cannot easily fade away.

High school years are filled with many tears and many shattered dreams. It's laughs, smiles, and friends that get us through those years and help to ease the pain. I really must not be staying. Life's music does not stop playing for old friends to look back on time.

Yes, now I recall your name. Much joy, love, and happiness to you even though it will never be the same. So I must go . . . good-bye to you, my high school friend.

### Juniors Host Junior-Senior

This year the juniors of W.H.A. participated in many clubs and sports. They worked hard in their spare time selling magazines which boosted their treasury greatly. The Country Store at the Halloween Carnival was again sponsored by the jun-

ior class. This also was very profi able. Junior-Senior was the main project of the juniors this year. Being the hosts for the spring event, the junior made sure that it would be a great success. Receiving class rings was another big event.

The sophomore class worked hard to increase its treasury this year by selling cookies, cokes, and doughnuts during exams. Having a choice of playing varsity or junior varsity sports increased sophomore participation. The prospect of being selected waiters and waitresses for Jr.-Stadded excitement.

Advanced courses were challenging for some freshmen. At the Halloween Carnival, sponsored by Student Council, each freshman homeroom had a booth. ## B A N D S

Each homeroom in the Lower School acted as a band, working together on projects that produced knowledge by way of discovery, friendships, and increasing interests. Learning together gave each child a chance to add to his own creativity which would later develop completely. With the aid of teachers, new ideas were inspired and put to use in activities in which the class participated fully.

### 6th Graders Enjoy Privileges As Seniors of Lower School

The sixth graders took a leading part in many school activities. As the leaders of lower school, they took on responsibilities. Raising and lowering the flag was a major duty. Also, there were traffic directing, canteen help, Saturday basketball, May Day festivities, and physical education. The

sixth graders, along with the fourth and fifth graders, performed a special skit for the student body at Thanksgiving.

### 2nd Graders Learn Map Skills

This year second graders occupied some of their time with reading maps. Learning cursive skills was exciting for everyone. Developing paragraphs from a single sentence became a difficult task for some second graders.

In science, testing balloons gave a clearer understanding to the second graders of how they work. Attending music class every Tuesday and going to the library on Wednesdays provided a break in the day's work.

The first year of school proved to be exciting, challenging, and scary for the inexperienced students. First grade was the beginning of the "bigtime" school life. Teachers urged students to use their imaginations and to develop their skills. Not only were the students guided to develop academic skills, but also artistic abilities. The halls were kept colorful with holiday decorations invented by the students.

The kindergartners this year were busy, not only learning reading, writing and arithmetic, but also with projects such as learning about distant countries and the customs of international children. They planted spring farms, had an Easter egg hunt and a Christmas party. Along with the fun there was also work involved. Since this was their first year of school, the children were especially eager t learn. Reading and number concept were stressed to better prepare th children for the many school year ahead.

A strong feeling of wanting to be number one was felt by the Rebel fans. The players felt the pressure. Percussion was added to their music. As each game neared, each participant wanted to do his best, contributing to the team to the best of his ability. As seasons wore on, the percussion got louder and faster — the pressure of bettering the record or adding another victory to it. The center of the percussion came from each player's trying to live up to his own expectations and maintain goals he had set for himself.

The 1979 W.H.A. football team made it to the first round of the play-offs but was defeated by Hammond in a close game. The forty-three members of this year's squad started

the Rebels proved to have valuable depth and experience. After getting off to a slow start, the W.H.A. team came back and won the last six games of their regular season schedule.

# "Thanks for the Memories"

"Thanks for the memories. We've feasted, we've fasted, we've had fun — no harm done. It's all been swell, Thanks so much." Although the year's song was at an end, each individual's song would continue throughout his lifetime, to be written in many ways, practiced many years. The song was one to be shared and remembered with happiness for it contained sharing, friendship, love, harmony.

next year & have a great summer.

Keep a song in your heart! It will lighten The duty you hold in your hand; Its music will graciously brighten The work your high purpose has planned; Your notes in the lives that are saddened May make them hopefully yearn,
And earth shall be wondrously gladdened By songs they shall sing in return.

as I sit in my favorite chair in my favorite room in my house - listening to My favorite rock gray- Pink Floyd - land OX "The Dark side of the Muon" - I ponder our friendship. It took guite afew turns-The decided that this way is the best: you & I being the best of facenals - anything more always seems to get screwedup You know how much I think of you you are due of the few individuals at wade tampton - one of the few people trat thinks much like I do - But - the major discrepancies are lange - one major conflict that shouldn't be one is of coursemoney we were it totally differently I think it is simpally to be spent- to be blown away - it's no good inless you use it - I think that it is there we disagree - " Money - it's a crime - share it fainly but doit take a slice of my sie..." Right - well never a gree - Money -Logan its not as valvable as you have been lead to believe - Time - yes - time is what is important waste money - not time -Turn 40 P-228
