LOGAN,

toward everyone of your accomplishments - But now I see a person with great sentimentality toward his friends. And you make like to tell every Award you got - and you deserve every Award you got - and you strive to be better than others. and you succeed. Not many people have been as honored as you in both Academics and Athletics. I'm not feeding you full of bull to make your head swell. I think you're an exceptional person and I'm glad I got to know you - Good luck at the Citadel -
