Logan,

Sometimes I didn't know what to make of your smarter-than-you attitude, but since I'm in a good mood now, I'll tell you I didn't mind it too much. It was even humorous. But you

C. F. EVANS AND COMPANY

are smart & you are good in lab. & you are an expert on *The Rocky Horror Picture Show*. Even better you are a great guy - one that's going to do great in life. I wish you the best of luck

in all that you do, especially at college. One more thing - thanks for mashing the olives, & I'm sorry for breaking your test tube.

Love,

Susan Penn
