

ORANGEBURG INSURANCE AGENCY

Legan,
 This year has been great. No thanks to you, but it has been great. Seriously, this class would have been awful boring without somebody to pick on. Too bad you never became a member of the O club. It was quite exclusive. Our A. Chem. class ought to get together for a celebration. We have reunions every couple years. Just for your personal info I plan to go to the top education degree possible and make the lowest average through school ever. Scott
