

MARGUERITE WILLIS

HENDERSONVILLE, S. C.

*"Margie"*

In the fall of '25 there was much weeping and gnashing of teeth in Hendersonville, for "*Margie*" was departing for the wilds of Walterboro. She was going to seek an education with the hope of some day returning and electing herself mayor of Hendersonville.

Her sparkling wit and ready humor are hard to down, but fortunately she has a well trained conscience and never does anything that would cause it to rebel. Although a stranger in the school in her senior year, she readily took a great interest in the school activities, did especially well in her studies, and made many true friends. The best of luck to you, "*Margie*".
