

A MESSAGE

from Our Superintendent

TO THE CLASS OF 1944:

The completion of your high school career means that you have passed one of the great milestones of your life. May I offer you my sincere congratulations on your accomplishments. You have spent many pleasant and profitable hours here in your high school, and I trust that the memory of your experiences will always be an abiding one.

With all great honors come great responsibilities. Upon you now fall the responsibility of carrying on. Your state and country have great need of your physical and mental powers in the present world conflict and crisis and in the peace which we are all looking forward to. I feel that you will not shirk these responsibilities. Surely, the training and experience which you have had during your high school days will have fitted you to take your place in the world today and enable you to acquit yourselves nobly and honorably.

To you we pass the torch. Hold it high and carry it ever forward.

T. B. Stevenson,
Superintendent
