

# Carpentry Boys

The newest addition to the Walterboro High School is the 42 x 52 fireproof cannery built by the carpentry boys under the supervision of Mr. E. C. Blackwell. Due to the fact that the boys made these cement blocks themselves and furnished the labor, the cost comes to \$1,000; whereas if the blocks had been bought and labor hired, the cost would have been \$2,500. This achievement is one to which the boys can point with pride in the years to come as the community utilizes the cannery.
