

The beginning of the school year '49-'50 saw the students of Walterboro High School organized under a new constitution ratified the previous spring.

The organization, called the Students' Governing Association, has two branches, the executive and the legislative.

The executive branch consists of the president and his cabinet; the legislative branch is composed of the home-room representatives, elected by each class in school.

All laws, resolutions, and projects adopted by the legislature are executed by the executive department.

The president of the Association presided over assemblies and student body meetings; the vice-president presides over the legislature.

Mrs. Ruth Thomas is sponsor. This year's legislature members are:
