ALMA MATER

*Angels guard our Alma Mater
From the skies of blue;
Guard and guide our footsteps ever,
Firm and strong and true.*

*We will e'er uphold thy standards
Honor, love, and truth;
Pledge our hearts, our hands, and voices,
Loyalty and youth.*

*Forward ! Ever be our watchword,
Conquer and prevail;
Hail to thee, our Alma Mater,
WHS all Hail !*

SCHOOL PRAYER

*May every thought we think today
And everything we do and say
Be worthy of the folks we love
And worthy of our God above.
Amen*

WISDOM

"For wisdom is better than rubies; and all the things that may be desired are not to be compared with it."

HONOR

"Honor is like the eye, which cannot suffer the least impurity without damage. It is a precious stone, the price of which is lessened by a single flaw."

SCHOLARSHIP

"He that would make real progress in knowledge must dedicate his age as well as his youth, the latter growth as well as the first fruits, at the altar of truth."

FOREWORD

Youth is a portrait painted with the joys, the fears, the introspection, the confidence, and the eagerness which comprise the vivid colors of this ordeal called growing up.

Each of us has traveled the halls of WHS with different emotions. The freshman embarks upon the new experience with feelings of apprehension and restraint. The senior emerges with a deep sense of pride and accomplishment at the fulfillment of a long sought-after dream. The sounds and the faces of our school are many, but taken together they make each of us what we are — youth with visions that will not crumble under cold reality but will turn into reality itself for the whole world to view.

So today we at WHS must hang on to these golden dreams and true ideals, for this is what keeps us young. We must build fortresses around our hearts and guard our hopes from the bitterness of time. Then, time may rob us of our youth, but it can never steal away our happy, carefree memories — memories of WHS.

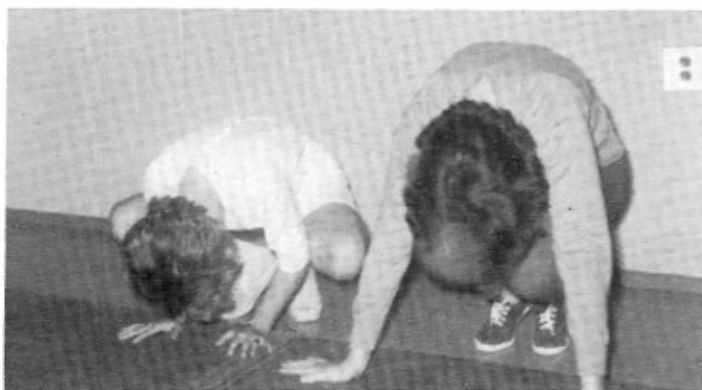

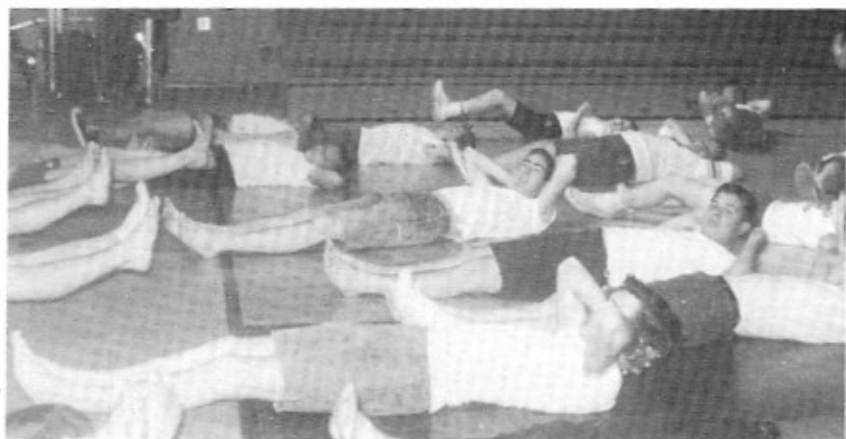

*To offer friendship without motive,
To be happy and to share happiness,
To give help without thought of reward,
To defend that worth defending,
To believe there is a prayer for
every problem, an answer for every
question, and a ladder for every
climb . . .*

THE NATURE OF YOUTH

BECAUSE WE ARE FRIENDS . . .

WE SHARE THE JOYS OF BEING YOUNG . . .

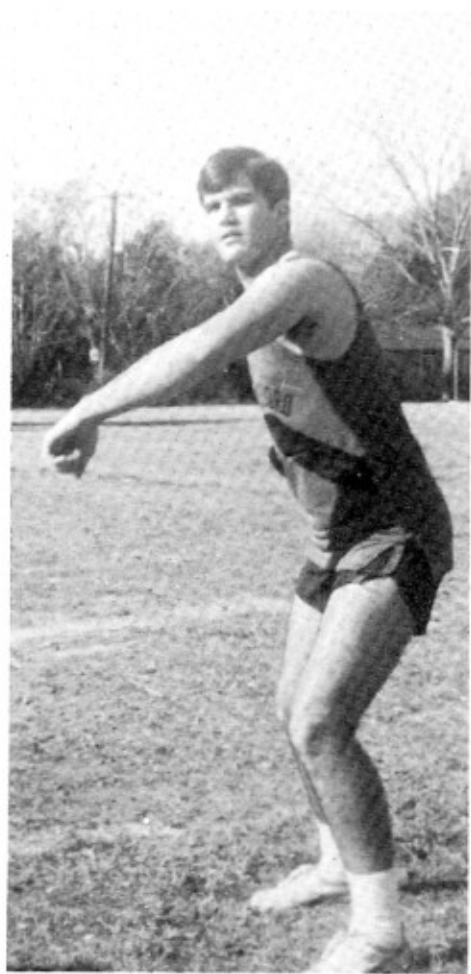

AND HELP EACH OTHER UNDERSTAND . . .

THAT TO FALL IS THE NATURE OF LIFE . . .

TO RISE AGAIN . . .

IS THE NATURE OF YOUTH.

ENGLISH AND FOREIGN LANGUAGES

The English Department offers to each student of WSHS the opportunity to learn how to use his language well—to speak with assurance, to write with clarity, to read with understanding. Today's world demands facility in communication; the English Department strives to supply this necessary skill to our students.

Three foreign languages—Spanish, French, and Latin—give a basis for understanding and appreciating civilizations and cultures other than our own.

Mrs. M. F. Parker
Chairman English and Foreign Language Department

Nice things come in small packages.

Mrs. N. Simmons
Chairman Social Studies Department

SOCIAL STUDIES

An understanding of the past is a necessary component of the understanding of our present. Courses in United States and World history seek to fulfill this goal while civics and American government strive to make our students informed and interested citizens. World geography emphasizes the relationship of man and the earth in various parts of the world.

MATH

The ever-increasing complexity of our civilization makes it imperative that more people know more mathematics. The Mathematics Department realizes its responsibility in trying to help students meet this challenge. Courses offered by the department include general mathematics, algebra, geometry, and advanced mathematics. These are all modern courses.

Mrs. M. Jones
Chairman Mathematics Department

Mrs. M. Lytchfield
Chairman Science Department

SCIENCE

As its long-range goal, the Science Department attempts to introduce the students to a systematic study of various fields of science, developing both practical skills and theory. The department includes courses in general science, in biology, and in physical science, which is a basic course for the further advanced studies in chemistry and physics.

TRADE AND INDUSTRY

..Industrial Arts education objectives are concerned with the industrial orientation, consumer knowledge of industrial products, and the prevocational and avocational interests of the students.

..Vocational education classes are designed to prepare high school students for gainful employment in a specific occupation or family of occupations.

AGRICULTURE

..The Agriculture Department tries to prepare its students for positions in the many fields of agriculture. These include farming, agricultural occupations, agricultural sales and services, and preparation for the students who plan to further their education in one of the fine agricultural colleges or technical schools. Also, as a part of the department's work, adult classes are held for young farmers, and each year a twenty-hour course is offered in such areas as farm mechanics or farm management.

HOME ECONOMICS

Three years of home economics are offered at WHS. The courses include work in the following areas; clothing and textiles; child development; foods and nutrition; health; home management; housing, equipment, and furnishings; personal and family relationships. There are two active FHA chapters. Each year they elect a "Miss F. H. A."

MUSIC

..Believing that music is a major factor in the well-rounded school life of all students, the WHS Music Department provides instruction in this field. With group and personal performances at concerts, football games, parades, and assemblies, the chorus and the band enhance the spirit of the American way of life and build cooperation and understanding for a richer and fuller experience on our campus.

PHYSICAL EDUCATION

..Physical education is an integral part of the school curriculum. Physical, mental, and social skills, learned through physical activity, contribute to the development of good citizens for the community.

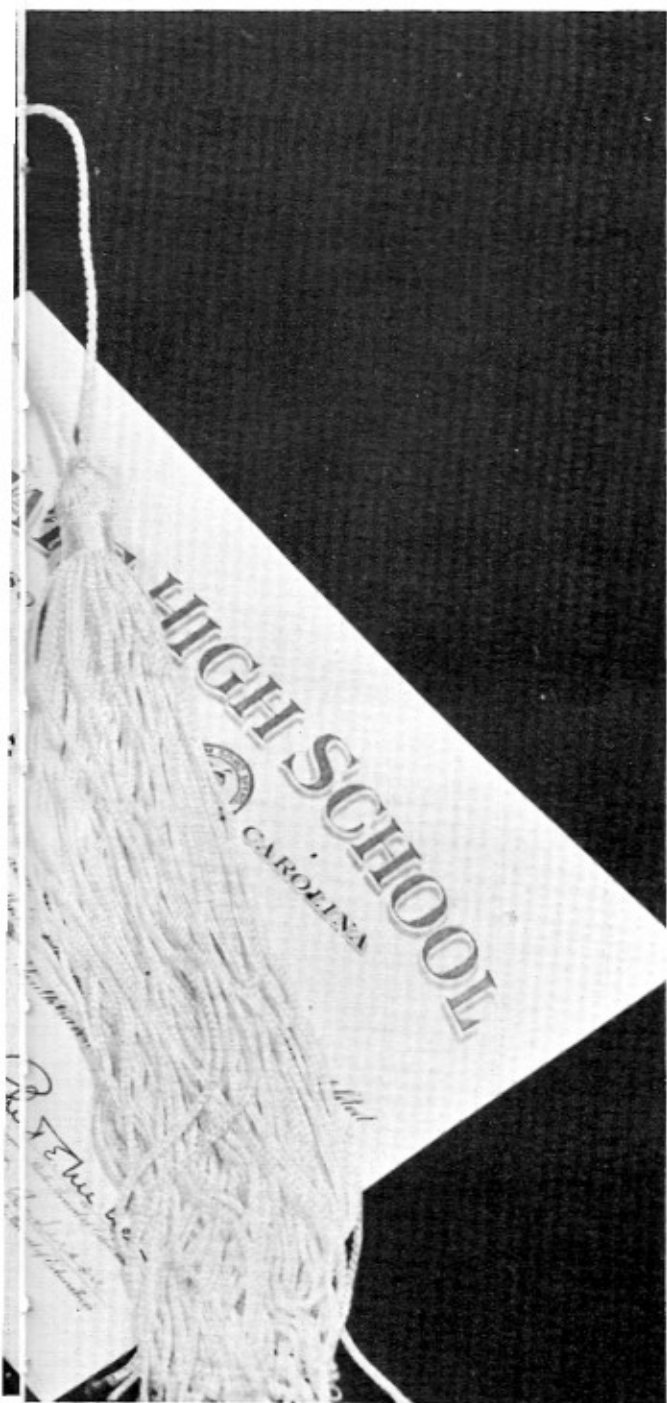

COMMERCIAL

..Students of WHS may now receive a Commercial Diploma. Those planning to major in Office Occupations will select either a bookkeeping major or a stenographic major. Only students enrolled in one of the office occupations majors will be enrolled in the courses required. Courses in Personal Typing and Elective Bookkeeping are offered as elective courses for students with other majors.

SENIORS

SENIOR CLASS HISTORY

The fall of 1963 brought us into the high school community. Subject to the all-powerful will of upper-classmen, we struggled in adjusting to the rigors of a more advanced scholastic life.

Still, even as freshmen we enjoyed some of the outstanding pleasures our school provides: the excitement of seeing Pip's great expectations fulfilled, the joy of reading Jess Stuart's homespun philosophy, the thrill of exploring the inner sanctums of the frog's digestive tract.

Some were happy to see new faces at our school as we began the second year under an untried administration. 1964 was the great election year that stormed the country and brought fiery debate to our campus also. We were becoming in this period more a part of our school with the first attempts at fundraising for the Junior-Senior.

The junior year brought us into the mainstream of school activities as we worked tirelessly to assemble dimes and dollars at every home football game. While we toiled through the depths of Emerson and Thoreau, the months sped by. A historic junior victory in the Powder Puff Game cheered our spirits throughout the solemn winter. In April came the gaiety and color of the Junior-Senior, a vibrant display of Polynesian splendor and tropic beauty.

After what seemed an age, September 1966 found us in the senior class. Under a new principal we assumed the posts of leadership in our school and pressed forward to the final battles of our academic campaign at WHS.

The memorable scenes of triumph and failure we experienced here are now sacred memories, forever enshrined in our hearts. The friendships we formed, the teachers we loved, the loyalty we cultivated, the knowledge we gained, the times of joy, and the times of sorrow at the passing of a fellow student are now a part of us.

From our high school days we have learned to work harmoniously, to take pride in accomplishment, to endure defeat without yielding to it, to live with purpose and responsibility. Because we take these precious experiences and lessons with us, our years at Waltherboro High School are not now behind us but only beginning.

SENIOR CLASS 1967

...During his final year, each senior began to realize what WHS meant to him. Attending the Homecoming festivities, taking the leadership in College Night, attending the Junior-Senior as a guest, and finally marching down the aisle in cap and gown: these would always be treasured memories.

...Graduation was anticipated with mixed emotions. Each year had been fun as well as work, but as this year ended, each senior knew that he would always have a special place in his heart for WHS.

JUNIORS . . . CLASS OF '68

Juniors began to realize that many decisions must be made in the coming year. With this in mind, students chose their courses and settled to work. Looking forward to such things as their first Junior-Senior, the juniors worked madly on the Halloween Carnival, concession stands, and class play.

Being tapped into the Honor Society was the hope of many, although only eleven were selected. As in previous years, the top eight members were chosen to serve as Junior Marshals. Through their united efforts, juniors were preparing themselves for their roles as seniors, as well as for later life.

SOPHOMORES . . . CLASS OF '69

The sophomores returned to school in the fall feeling very wise and looking with sophisticated pity upon the lowly freshmen. They realized, however, that even they must work. They were soon involved in classes, car-washes, and class elections. As they assumed their roles as responsible class members, they were looking forward to greater heights and even better achievements.

The crowded hallways and the confusion of new classes were only two of the varied experiences that every freshman met as he faced the challenges of WHS. The fog finally lifted, however, and the time arrived for the NEDT tests. All were in high hopes for the ninety-ninth percentile!

School drew to a close and in retrospect the freshmen realized that much progress had been made since taking their first steps into WHS.

ORGANIZATIONS

STUDENT COUNCIL

The Student Council is undeniably the most active and effective organization at Walterboro High. As representatives, leaders, and servants of the student body, members shoulder enormous responsibilities throughout the year and continually work to improve our school in all aspects.

Among the activities of the Student Council are: conducting a workshop for the training of members, running elections, publicizing the Honor Roll, and making signs for the teachers' parking places. Through the annual Queen of Hearts Contest the Council makes money to support its activities.

RAYMOND GERALD BRUINS

August 14, 1948 - March 10, 1967

*Though nothing can bring back the hour
Of splendor in the grass, or glory in the flower;
We will grieve not, rather find
Strength in what remains behind;
In the primal sympathy
Which having been must ever be;
In the soothing thoughts that spring
Out of human suffering;
In the faith that looks through death,
In years that bring the philosophic mind.*

THANK YOU!

We, the Annual Staff of 1967, wish to express our gratitude and appreciation to the following:

The administration and faculty for their co-operation, understanding, and patience.
The student body for their many helpful suggestions, and co-operation.
Mrs. Mary F. Parker for her never-ending assistance and understanding.
Mr. Norman of Keys Printing Corporation for his invaluable assistance.
From the bottom of our hearts we thank you, for without your help we could never have published this edition of THE LAIR.
