

TOWN UNDERGOES FACE-LIFT

Walterboro High has not been the only place to get a new image. The opening of I-95 has had a profound change on the economy of Walterboro. The volume of tourist traffic has dropped drastically as the northern visitors turn onto Robertson Blvd. and by-pass the business district.

Our town's cultural climate has also changed. This is due primarily to the Walterboro Arts and Recreation Team, or W.A.R.T. They have been instrumental in bringing new talent into Walterboro and developing the talent already present.

The opening of this section of Interstate 95 is reducing the flow of tourist traffic in Walterboro.
