

Ms. McIntyre finishes her phone call in the front office just in time to get caught by a sneaky photographer.

Register at 18 Fellows!

UnCLE Sam still grabs young men when they turn 18 years of age. He requires all to register with the Selective Service.

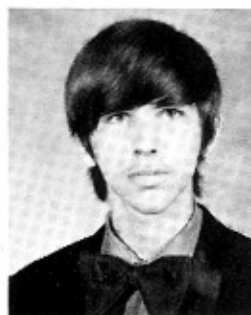

Males at WHS could register in the main office, as the draft board was no longer located in Walterboro.

Mrs. Rhode, WHS secretary, reported an average of six students per month registering in the office. These young men needed to know their social security numbers. They were allowed to register during a period beginning one month before, and ending one month after their eighteenth birthdays.

If they failed to register during this period, they were required to write a letter to the Draft Board in Beaufort stating why they were late.

Men not attending school registered at the Colleton County Library.

Now that we have a voluntary armed service registration isn't as traumatic as it once was.
