

The Student Council worked very hard this year to improve Walterboro High in every way possible. There were times when we did not do things exactly like other people may have wanted, but we made it through even the roughest times.

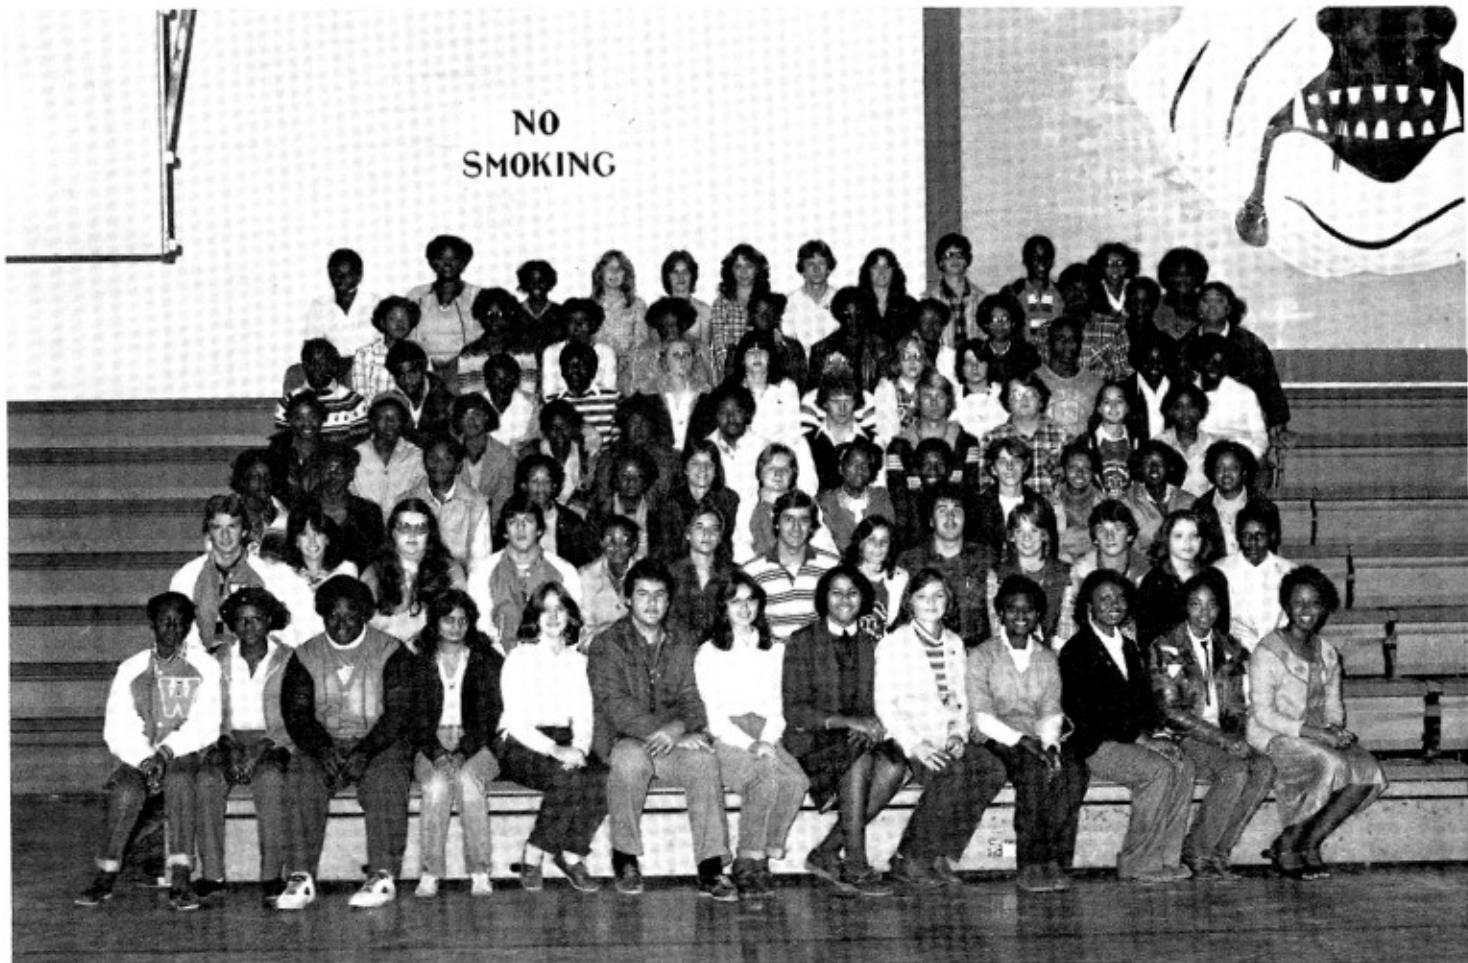

The Student Council tried hard to make each student understand that he is somebody and that his success lies within himself. We stressed this by giving each student a handout at Christmas that had some good thoughts for everyone. We also placed positive approach posters

*"We are beautiful people!"*

around the school to improve the self-images of the students.

The Student Council was a great success because of the many good leaders within the Council. We had total participation from our advisors, officers, representatives, alternates, committee members and the Leadership class. This alone, however, was not enough. We also had great support from the faculty and the entire student body. Working together we were able to achieve our many goals.

We come into this world alone; We leave this world alone. The life we live is ours to share!!
